The fifth Balkans Conference on HIV and AIDS

25th - 26th of March 2010 • Hotel Dubrovnik • Zagreb, Croatia

“A decade of responding to HIV in the Western Balkans region: What have we learned and where are we going?”

INTRODUCTION

The fifth Balkans Conference on HIV and AIDS will be held at Zagreb, Croatia on Thursday the 25th and Friday the 26th of March 2010 at the Hotel Dubrovnik in the centre of Zagreb. The Conference is organized by Partnerships in Health and the United Nations Development Programme, Croatia, and it is supported financially by the Swedish International Development Cooperation Agency (Sida). The Conference is a partnership with vulnerable groups, governments, civil societies, United Nations Joint AIDS Programme family, the Global Fund to Fight AIDS, TB and Malaria, and academic institutions.

This annual regional conference has been an integral component of the Western Balkans HIV and AIDS Programme – Building Regional HIV Resilience and is the last one to be organized by the Programme. It is an opportunity for all partners to reflect on the joint achievements in the responses to HIV in the region as well as to further strengthen regional collaboration to meet the challenge of the coming decade.

CONFERENCE OBJECTIVE

Reflect on progress made responding to HIV during the past decade and look forward to the next decade of increased regional exchange, networking, and collaboration to strengthen regional resilience against HIV.

The Western Balkans Regional Programme to Fight HIV and AIDS is a comprehensive three-year programme, funded by the Swedish International Development Agency and implemented by Partnerships in Health through its four country offices in the region.
